Hi there! I am a web designer/developer currently based in Portland, Oregon. I have a BFA in Illustration from the School of Visual Arts in NYC, as well as a graduate certificate in Web Design from Portland State University. For the past 3 ½ years, I have co-owned and operated a small, successful web design company. While I love the freedom of being my own boss, my current interests lean more towards the creative aspect rather than the managerial. Whether you're looking for someone full-time, part-time, contract, or you're an agency just looking to offload some grunt work, I'm your gal.
